EQUIPMENT & MATERIALS

# Cone-to-Cone Winding System - 8 spindles

Product configuration and technical specifications.

## TECHNICAL SPECIFICATIONS

| | |
|---|---|
| Spindles | 8 (2 x 4-spindle units) |
| Mechanical speed | 100-1,000 m/min, yarn-dependent |
| Rail length | 4 m |
| Air splicers | 1 shared mobile unit |
| Package diameter | 290 mm |
| Package weight | 3 kg |
| Machine dimensions | 1,260 x 440 x 1,140 mm per unit |
| Net weight | Approx. 160 kg for two units |
| Power supply | Single-phase 220 V, 50/60 Hz |

## CONFIGURATION

Independent spindle control / Electronic length counter / Mobile air splicer

Working output depends on material and configuration. Confirm the final specification with Yishuo.
