EQUIPMENT & MATERIALS

Split Yarn Warping Machine

Product configuration and technical specifications.

TECHNICAL SPECIFICATIONS

Line speed	Up to 600 m/min
Beam sizes	21 / 30 inches
Braking torque	3,200 Nm
Main motor	11 kW
Yarn groups	72 (configuration dependent)

CONFIGURATION

Pneumatic beam handling / Yarn-break stop

Working output depends on material and configuration. Confirm the final specification with Yishuo.
