EQUIPMENT & MATERIALS

YS-YB20 Ultrasonic Cutting, Bonding and Punching Machine

Product configuration and technical specifications.

TECHNICAL SPECIFICATIONS

Frequency	20 kHz
Power supply	220 V
Power	2,000 W
Air pressure	At least 0.6 MPa
Tape width	1-70 mm
Tape thickness	0.1-4 mm
Punching diameter	1-50 mm
Machine dimensions	340 x 350 x 480 mm
Net weight	40 kg

CONFIGURATION

Cutting, bonding and punching tooling / Product-specific tooling

Working output depends on material and configuration. Confirm the final specification with Yishuo.
