EQUIPMENT & MATERIALS

YST-P225 Paper Core Making Machine

Product configuration and technical specifications.

TECHNICAL SPECIFICATIONS

Paper layers	3-16
Minimum wall thickness	0.8 mm
Maximum wall thickness	12 mm
Paper core diameter	16-150 mm
Speed	3-18 m/min
Main motor	7.5 kW
Machine dimensions	2,600 x 1,700 x 1,600 mm
Power supply	380 V, 3-phase

CONFIGURATION

Variable frequency control / Automatic glue supply

Working output depends on material and configuration. Confirm the final specification with Yishuo.
